April 20, 1989

Dear Lucy,

Greetings! I hope that my note reaches you and your family in good health. I called you a couple of times to see how you were doing. At present, I am applying for the Andy Warhol Scholarship in Painting at the New York Academy of Art.

I am including my statement of intent with this letter, to give an idea of what it is I am doing. Besides everything else, it would be a privilege and an honour for me to study traditional European painting, as well as to acquire the experience of learning offered by this institute.

Mr. Leon Golub, the Master painter has promised a letter of recommendation, however, I need more letters, and time is of the essence.

In order for me to get into the program the application is due in by the end of April. If possible I need a letter from your friend, Mr. Robert Rauschenberg, and any other people you think would be supportive.

I have included photo copies of my sculptures and other information about the last 30 years, in the hope that this may be of assistance to the people who would be writing the letters of support.

I will appreciate your help in this matter.

Thanking you in anticipation.

Hope to see you soon.

Sincerely and peace.

Dumile Feni.
